CASE STUDIES consulting professionals

SpencerHolmes

engineers ~ surveyors ~ planners

The company was formed in 1997 as a result of the merger of Spencer Holmes Miller Partners Limited and Brunsdon Cathie Limited. Spencer Holmes Miller Partners was a consulting practice with a 40 year history in core civil, structural and surveying projects. A much younger practice, Brunsdon Cathie Limited offered a diverse, but complementary range of professional services.

Spencer Holmes Limited is a performance-oriented consulting practice which places strong emphasis on firstly, understanding and secondly satisfying client requirements. We are dedicated to producing the best results for our clients at all times, and pride ourselves on building long-term relationships with our clients and professional colleagues. We produce efficient and cost-effective solutions promptly for straightforward assignments, and have the range of skills and experience necessary to generate innovative and unique designs when required.

What Spencer Holmes says about ABM...

“ Spencer Holmes Ltd are a multi-discipline firm of 35 professionals and support staff offering engineering, survey and planning services.

When the time came to upgrade our accounting software we looked at a variety of software packages. From an accounting point of view, ABM offered significant advantages to our practice. We agreed to work with Concept Engineering to develop an enhanced time cost module more suited to the needs of professionals who record time and disbursement costs at job level for monthly billing. We were looking for a spreadsheet style application which was easy to use, simple to maintain and would allow each staff member to enter their own timesheets on a daily basis. We also needed the ability to view the contents of our jobs which resulted in the addition of the job management viewer part of the application. This allows us to review the time charges, disbursement costs, accounts payable and accounts receivable etc.

We are very pleased with the result that has been achieved.”
