Service Industry
Complete Business Solution

Package content can be altered to suit.
Available in Small Business or Enterprise Editions

ABM

ABM is a comprehensive accounting and business system designed to suit all businesses. With next generation accounting technology and a long list of high powered features, ABM becomes the platform from which your business will run itself more efficiently and with less effort.

Particularly relevant is ABM's job costing and project management features, as well as superb stock control functionality. ABM provides a system where single entry provides speed and accuracy in the accounting, operation and management of the business through complete integration of all modules and functions. ABM provides a fast, comprehensive, reliable, yet simple workflow essential to running a business efficiently.

Service Management

Designed and developed for service companies that supply on-site service to their clients. It is a complete service management system that integrates with ABM. Like ABM it is powerful and customisable, scalable and easy to use.

Applicable to a wide range of service industries, some examples are businesses involved in air conditioning, computer service, refrigeration, catering equipment, waste disposal, etc.
