ABM

ABM is a comprehensive accounting and business system designed to suit any industry. With next generation accounting technology and a long list of high powered features, ABM becomes the platform from which your business will run itself more efficiently and with less effort.

Single entry functionality means data entered is automatically posted to the areas of the system and accounting process it needs to be in for reporting and processing. An easy to use Microsoft Office layout provides user familiarity to minimise adjustment period and attractive interface. The system is built to be fast, easy, yet comprehensive.

Customer Relationship Management

A system that is powerful, functional and affordable. Best of all, implementation time is short and ease of use is high. If you are determined to grow your customer base, strengthen your existing customer relationships and effectively manage your sales team, you need CRM Software. Use it to store all customer details, track customer interactions and progress, link to marketing campaigns, mail merge with Microsoft Word and Outlook, and much more...

Payroll

Manage your staff time, details, automate salary payments, track sick days and holidays, and much more...
